## JUST HOW MUCH SHOULD WOMAN WEIGH

A Local Expert Places the Figure at 135 Pounds

The correct weight for a woman is one hundred and thirty-five pounds, according to R. L. Boardman, physical director of the Y. M. C. A.  
This question is being agitated all over the country today as a result of a discussion held in New York recently where the problem of the fat woman is now calling for solution.  
The biggest affair that the suffragists have undertaken in the metropolis of the United States promises to be a parade prior to the election. It has been suggested that women weighing more than one hundred and fifty pounds, who have political equality at heart and who desire to be in the parade be offered the comfort of seats in vehicles.

"It will be safe enough to make the offer," said one suffragette leader. "The women weighing more than one hundred and fifty pounds will be ashamed to admit it, so they will all walk."  
Mr. Boardman believes that will be a splendid way to solve the difficulty and at the same time holds out the encouragement that after the big feature the woman will be "just that more attractive."

The why and wherefore of which is that the jaunt through the streets of New York will reduce the weight of the walkers!  
Mr. Boardman believes that will be a splendid way to solve the difficulty and at the same time holds out the encouragement that after the big feature the woman will be "just that more attractive."

**GOES TO WASHINGTON.**—Thomas Boyle, as a delegate to the convention of the National Defense League, left last evening for Washington. He will also represent J. W. Owen post, G. A. R., at the encampment of the Grand Army of the Republic.

## EIGHT CENT CUT IN TAX LEVY OF COCONINO COUNTY

Tax Commission Finds Northern County Exceeded Legal Limit and Orders Reduction Made by Supervisors

Finding the 1915 tax levy of Coconino county to be in excess of the 10 per cent limit allowed by law, the state tax commission yesterday notified the board of supervisors of the northern county to decrease the levy 8 cents on each \$100 valuation.  
Investigation of the Coconino levy was begun by the commission on complaint of the State Taxpayers' association, which complained that the legal limit had apparently been exceeded. The commission's order directs that the decrease be made from the general fund or the road fund, or both. A decrease of 8 cents on the Coconino valuation of approximately \$17,000,000 will result in a reduction of from \$12,000 to \$14,000 in the county revenue.

## MARKET COMMITTEE OF M. AND M. NAMED

McDougall, P. T. Slayback, C. H. Pratt Selected to Cooperate with Market Committees

At a special meeting of the directors of the Merchants and Manufacturers' association yesterday afternoon, a committee was named to cooperate with the similar committees named by other public welfare organizations, to study the market situation.

The committee is composed of: M. C. McDougall, Preston T. Slayback, Charles H. Pratt.

Announcement has already been made of committees on this matter from the advisory council of the Maricopa County Farm Improvement association and the chamber of commerce.

**PHOENIX AGENCY DESIRED**—R. M. Beckley, inspector of agencies for the Western States Life Insurance company of San Francisco, has been in the city for a short time for the purpose of establishing a branch agency here. Mr. Beckley left last night for New Mexico, but will return to Phoenix about the middle of next week, when he will make a selection of an agent for this state. The Western States Life Insurance company is a growing institution whose activities have been mostly confined to California, where its gain in paid-up insurance this year was \$2,965,018, representing 1679 policies. Its growth since its organization has been at the rate of nearly \$3,000,000 a year.

## LOVE GONE NO USE TO LIVE

Pretty Betty Braham Tries to End Her Life by Acid Route, Believing Leonard Einsweiler No Longer Cared for Her

Unrequited affection for Leonard Einsweiler, who came here recently from Cameron, Texas, led Miss Betty Braham, who also came here from Texas shortly after the arrival of Einsweiler, to take carbolic acid last evening at her boarding place, 607 South Second avenue. The prompt attention of Dr. Lorenzo Baldo, who was called when the young woman was discovered moaning upon the lawn in front of the Second avenue residence, saved her life.

That she fully intended to end her life is indicated in the letter she had written and placed upon a few of her belongings in her room, where a half-filled bottle of carbolic acid was also found. The letter reads:

"Dear Leonard: I cannot stand it any longer. I will leave you, but, dear, I wish you all the good luck in this world. I hope you will be happy and please don't do anyone as you did me. Dear, I love you and there isn't anyone on earth that I love like I do you. I want you to be a good baby doll and always remember me. For I was the best friend you had. Baby, always keep this letter. I gave Alice the hanger this morning. Please take it for my sake. Well, I will ring off. As ever, yours, "BETTY."

"Please don't tell anyone and I want these to go with me and put this with me."  
The physician was working to save the girl, the police were summoned. Night Captain McGrath found the letter and also the acid. Upon the advice of the physician, the girl was removed to the police station, as she manifested a determination to repeat her efforts at self-destruction at the first opportunity.

Betty Braham is a prepossessing girl of about 18 years. Einsweiler is about 17 years old. He visited the girl at the police station last night and expressed great surprise at her attempt to end her life. He said he had no idea that she was infatuated with him, although he admitted that she had come to Phoenix shortly after he had left Texas for this city. At the police station the girl bemoaned that her plans had been interfered with and said that she wanted to die.

## JONES WAITS BETTER PERSONAL USE CASE

Attorney General Not Worried About Gila County Case—Attorneys Told to Enforce Law

In spite of the recent action of the superior court of Gila county in a "personal use" liquor case, Attorney General Wiley E. Jones has notified all the county attorneys of the state to continue to enforce the prohibition amendment without reference to whether the liquor is introduced for personal use.

Although notice of appeal has been filed in the Gila county court, the attorney general stated yesterday that he did not expect to carry the case to the supreme court. A better complaint in which the question of the introduction of personal use would be clearly defined would, he said, be taken into the supreme court for decision. Meanwhile county attorneys, with the exception of the Gila county prosecutor, are instructed to stand pat and enforce the law, regardless of "personal use" explanations.

The case in question is brought by the state against Sam Yuhara for introducing intoxicating liquor into Arizona.

## SEEDLEY SONSIE OWNED IN PHOENIX

A. H. Fitz Purchaser of This Famous Champion Collie

The recent purchase by A. H. Fitz, of this city, of Dr. R. Fred Pettit's famous international champion collie "Seedley SONSIE" goes on record as one of the most noteworthy transfers that has occurred in kennel circles during the past year. While the price paid for this high class thoroughbred has not been made public, it is a well known fact that she was held at one time by Dr. Pettit at a figure running over a thousand dollars and was considered by collie fanciers to be worth the amount asked if for breeding purposes only. A thousand dollars seems to be a lot of money for a dog but it has been paid many times for imported collies and in a few cases with several thousands added to it.

Ch. Seedley SONSIE was bred by the king of breeders, R. G. Lord of Manchester, England and was imported to this country by Dr. Pettit of Albuquerque, N. M. when she was only six months old. Sired by one of England's greatest dogs, she first came into prominence at the big eastern shows winning first in the puppy class in many leading events and on reaching the novice age limit was entered in the open classes where she won honors in succession for four years. Records show that she has beaten every collie

## WILL URGE MODIFICATION OF EJECTMENT ORDER ON "STRIP"

Stock Interests of Three Counties Combine to Negotiate Settlement of Land Office Action Against Range Users

An attempt will be made to induce the department of justice to modify its order to United States Attorney Tom Flynn to proceed legally to eject stockmen from the San Carlos strip, according to advices received here yesterday. A conference of prominent stockmen, involved in the impending suit, with Attorney H. M. Fennimore of this city, it is understood, will have as a result, a petition to the attorney general to withdraw.

The general land office petitioned the secretary of the interior, to interest the department of justice in the move. It was fifteen years ago that the strip, comprising nine townships in the corners of Gila, Graham and Pima counties, was withdrawn from the San Carlos Indian reserve, and thrown into the public domain, to be used for mineral purposes only. Little or no mineral development has been done, and at the present time, it is understood that no mining interests are concerned at all. Cattle and goats began to range the strip, and now, the assessable valuation of such stock amounts to from \$100,000 to \$200,000. The ownership of this stock is held by some big and many small stockmen.

W. P. Pace and O. F. Webster were representing the stockmen in their negotiations with Attorney Flynn.

Assured the delegates that no proceedings would be started at once. This was in order to give the stockmen time to dispose of their interests. For outside the strip, there is practically no available range in that section. Most of the cattle are owned by men who live on their own holdings outside the strip, but some of the smaller holders have established ranch homes on the forbidden land.

The absence of any mineral development, and the alleged lack of any mineral to develop, will be urged as reasons why the stockmen should be left in peaceful use of the land. All who have used the ranges realize they can not establish title to any of the land, under its present status.

Receiver J. John J. Birdno of the land office has received numerous letters and telegrams from officials of Graham county and from bankers of the district, urging him to assure the general land office that the stock is not interfering with any possible mineral work on the strip.

## Resinol will stop that ugly itching rash

The moment that Resinol Ointment touches itching skin the itching stops and healing begins. That is why doctors have prescribed it so successfully for twenty years in even the severest cases of eczema, ringworm, rashes, and many other tormenting, disgusting skin diseases. Aided by warm baths with Resinol Soap, Resinol Ointment makes a sick skin or scalp healthy, quickly, easily and at little cost.  
Resinol Ointment and Resinol Soap also clear away pimples, blackheads and dandruff. Sold by all druggists; for trial free, write to Resinol, Dept. 14-S, Baltimore, Md.

**The Secret of a Good Figure**  
often lies in the braisere. Hundreds of thousands of women wear the bien-jolie Braisieres for the reason that they regard it as necessary as a corset. It supports the bust and back and gives the figure the youthful outline fashion decrees.  
**BIEN-JOLIE**  
are the daintiest, most serviceable garments imaginable. Only the best of materials are used—for instance, "Wolonia," a flexible boning of great durability—absolutely rustless—permitting laundering without removal.  
They come in all styles, and your local Dry Goods dealer will show them to you on request. If he does not carry them, he can easily get them for you by writing to us. Send for an illustrated booklet showing styles that are in high favor.
